

Advisory

BCFSA Adopts Guideline B-10 'Third Party Risk Management'

Date: October 28, 2025
Distribution: B.C. Incorporated Insurance Companies
Advisory Number: 25-042

PURPOSE

Following a public consultation, BCFSA is now adopting Guideline B-10 'Third Party Risk Management' (B-10) originally published by the Office of the Superintendent of Financial Institutions (OSFI).

As part of this adoption, BCFSA is publishing a BCFSA version of B-10, hereafter referred to as the Guideline, for B.C. incorporated insurance companies (insurers) to follow.

The Guideline will come into effect on January 1, 2028. This more than two-year transition period permits insurers time to effectively review and modify their third-party arrangements accordingly. Insurers should remain compliant with BCFSA's currently in-force Outsourcing Guideline until it is formally rescinded on January 1, 2028.

BACKGROUND

BCFSA undertook a 90-day consultation from April 8 to July 8, 2025, seeking feedback from insurers on four OSFI guidelines, including B-10, for adoption by BCFSA. Upon request, BCFSA extended the deadline for consultation to August 8. The consultation included an invitation for written feedback as well as opportunities for insurers to provide feedback in one-on-one discussions with BCFSA.

Written and verbal feedback related to B-10 focused on implementation and requested that BCFSA provide a longer timeframe than typical for a guideline. BCFSA took this feedback into consideration when determining the implementation timeline communicated above.

BCFSA values the feedback it receives during consultations and thanks everyone that took the time to participate in the consultation.

If you have questions regarding the guideline, please contact us at policy@bcfsa.ca.
