## 2026 DPS Range Review—Update

---

**Date:** December 1, 2025  
**Distribution:** B.C. Credit Union CFOs  
**Advisory Number:** 25-049

---

### PURPOSE

This advisory provides an update on the 2026 Differential Premium System (DPS) relative scoring ranges that the Credit Union Deposit Insurance Corporation of British Columbia (CUDIC) uses to determine B.C. credit unions' premium assessment scores. The DPS relative scoring ranges will remain the same for 2026.

### BACKGROUND

As outlined in the DPS manual, the relative ranges undergo an annual review. Should there be a significant deviation in the distribution of credit unions among the risk metrics, adjustments will be made accordingly, and notifications will be issued to the segment.

The review performed this year **did not merit a change** in the relative ranges. Please find the manual and calculator at the following links:

- [DPS Manual](#)
- [DPS Calculator](#)
